## Why a TRIBOLOGIK® Newsletter...

We are pleased to introduce the Tribologik® Newsletter, a newsletter that will be published and e-mailed to our customers and business partners on a regular basis. Our objective is to provide technical information on oil tests and procedures as well as a clear understanding of the multiple benefits of our expert system and automated oil analysis management system, Tribologik®. The goal of oil analysis is to optimize your equipment's and lubricants efficiency and our chemists and engineers will be pleased to answer your questions and comments on the do's and don't in order to reach this objective. Please contact us at [info@tribologik.com](mailto:info@tribologik.com) You may also unsubscribe at anytime at same e-mail.

## New, Faster Tribologik® Internet Connection

In order to improve its customer service, PMC will be upgrading the Tribologik® Internet connection at the beginning of December. The user interface will remain the same, but the new connection will be much faster, therefore increasing the productivity of your Tribologik® oil analysis program. Other improvements are scheduled for the first quarter of 2011. This Newsletter will keep you informed.

## Tribologik® now Available in Spanish and Chinese

The Tribologik® global franchising program took off a few years ago and in order to keep up with the international demand, Tribologik® is now available in 4 languages. We have added Spanish and Chinese to English and French and the Tribologik® website and all its functionalities are accessible in these 4 languages as well. The benefits of our expert system and automated laboratory management system are therefore available to Spanish and Latin American OEMs, lubricant manufacturers and laboratories, and Tribologik® is ready to make its debut with the huge and innumerable industrial and mobile equipment operators of China, thus confirming its global leadership among lubricant analysis expert systems and software applications.
